

Floor Mount Angled Bracket

Floor Mount Shuttered Angled Bracket

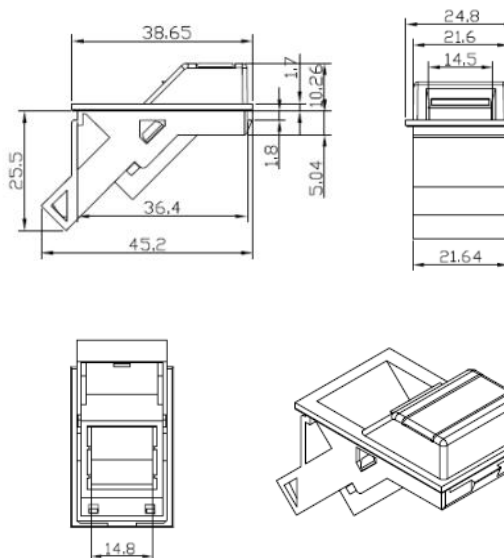

Infinique’s floor mount angled bracket are shuttered and are available to suit Infinique’s Cat.5e, Cat.6 and Cat.6a keystone jacks. Available in the standard size of 25 x 38 mm, the housing is designed to assist in the installation of large diameter cables in confined spaces such floor boxes. Floor mount bracket has an angled design which presents the keystone jack at 45 degrees to both the cable and RJ45 patch cord to be connected to the installed socket. Includes pressure-release designation label cover for quick and tool-less removal.

Designed to optimize the space available and ensures minimal bend radius during installation or use.
